

Refreshingly New!

The latest range of products for the discerning needs.

**Veejay Lakshmi
Engineering Works Ltd.**

PRECISION PROPELLER ASSEMBLY WINDER

- Two different models of 6" traverse (VJ PW-6) and 8" traverse (VJ PW-8)
- Traverse system by counter-rotating blades with individual spindle speed control
- No slippage and no pattern
- Straight yarn path
- Sophisticated electronics with touch-screen User Interface

TWO-FOR-ONE TWISTER

- Three different models of 150M, 120M and 100M to suit various Count and Material range
- High rate of twist insertion, negligible twist CV% with appreciable reduction in power consumption
- Provision for normal and soft package winding

RANDOM ASSEMBLY WINDER & RE-WINDER

- Machines of 6" traverse (VJ AW-6) as well as 8" traverse (VJ AW-8) are offered
- Straight yarn path
- Reduced mechanical moving parts ensure minimal maintenance
- Double arm steel cradle with adjustable pressure points for optimal package
- Man machine interface through dedicated electronic controls with touch-screen

EXCELLO AUTOMATIC CONE WINDER

- Excello ACW is the perfect blend of engineering excellence with new generation features
- Trusted house name of over 100 mills in India
- Economical, Custom-built with absolute reliable
- Well stocked critical spare parts through 'e-procure' (via internet over mouse click), reducing ordering and delivery time

TFO FOR SPECIAL APPLICATIONS

- Specially designed VJ-250 for multi-ply and coarse yarn
- The machine can take 5 Kg feed package and 5 Kg delivery package
- Very ideal machine for manufacturing carpet yarn, industrial yarn, tyre cord yarn, jute yarn and other specialty yarns
